Full Job Description

Software engineers and IT executives: TechDoc Experts Inc. needs extraordinary technical writers. Our ideal candidate is someone with excellent technical credentials and a career in software, who wants a change from the front lines of development/management.
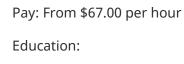

One opening is for a technical writer to work on highly technical internal docs (like architecture overviews) for a bleeding-edge IT company. This is something almost no tech writers can do; even fewer ever get the opportunity.

You need to have writing samples and write reasonably well; we can improve writing skills. We are looking for software engineers, IT managers, and IT executives who never considered working as a tech writer.

You can work from home, hours are reasonable and flexible (some positions could be part- or full-time), and stress is low. Yet, you'll be mentally challenged by very interesting technology and work that you can be proud of. Our niche is the best, smartest, and most technical, and we pay at the top end of the scale.

TechDoc Experts is unlike any other technical-writing company. You won't understand how different we are until you check us out at TechDocExperts.com.

Job Types: Full-time, Part-time

Pay: From $67.00 per hour

Education:

- Bachelor's (Preferred)

Work Location:

- Fully Remote

1 day ago

If you require alternative methods of application or screening, you must approach the employer directly to request this as Indeed is not responsible for the employer's application process.
